The upcoming upgrade of the University’s core technology systems will affect all students. The way you register for classes, view your financial aid, pay bills, and more will change when the Upgrade is complete (scheduled for April 20). One Stop is ready to help you through the change.

**Prepare for a systems interruption**
Many systems you use will be unavailable or view-only April 10-20. See this complete list of what is/is not available during the systems interruption. Key dates and deadlines are available at upgrade.umn.edu/student.

- If you are on a waitlist and receive a permission number to enroll in a class, please do so right away. If you remain on a waitlist during the Upgrade, we will contact you to guide you through the new process.
- If you are expecting financial aid that you have not yet received, please contact One Stop right away.
- If you will have charges due with the April 4 bill, make a plan for how you will pay it. The online payment system will be unavailable beginning at 4:30 p.m. on April 8. We recommend paying online prior to that date or after service is restored.
- Make sure your Parent/Guest Access is set-up the way you want it before 4:30 p.m. on April 8.

**Become familiar with the new and upgraded systems**
When the Upgrade is complete, the systems you use will be new or upgraded—including a new MyU.

- Take a look at the new MyU. The new MyU is where you will register, view financial aid, pay bills and more.
- Learn how you’ll take care of common tasks by checking out these step-by-step instructions.
- If you’re a student worker who submits your timesheet on paper, be sure you know how to submit your work hours online.

One Stop is ready for the Upgrade. One Stop counselors are prepared to answer any questions you have about the systems interruption or how things will work in the new and upgraded systems. The One Stop website will be updated with new information. Until then, you can check out upgrade.umn.edu/student for more information and resources.
